

available for distribution under this decree on April 15th, and shall constitute the total available storage supply for allocation under this decree as between the two said reservoirs. Any water properly subject to allocation to the Sevier Bridge Reservoir under this decree accumulating in the Piute Reservoir or credited to the same after April 15th, shall be turned down to the Sevier Bridge Reservoir in the same fashion and subject to the same conditions as hereinabove provided with respect to any excess storage in the Piute Reservoir prior to April 15th.

That any water left in the Piute Reservoir, or in the Sevier Bridge Reservoir, on October 1st of each year, except such water, if any, that may be due Sevier Bridge Reservoir from the Piute Reservoir under this decree, is herein designated as holdover water, and shall belong absolutely to the reservoir in which it is held, and shall not be taken into consideration in the allocation of water for the following year. All water owing Sevier Bridge Reservoir by Piute Reservoir shall be delivered into Sevier Bridge Reservoir as of October 1st in each and every year.

That the Deseret Irrigation Company, the Abraham Irrigation Company and the Central Utah Water Company shall be entitled to the direct diversion of the primary water now owned by them and awarded under the "Higgins decree" beginning March 1st of each and every year, to the extent it is thereafter available in the river, and said parties shall have the right to use or store such water for future use by themselves or their exchanges as they may elect.

That none of the owners of Piute Reservoir except as herein-after provided or Sevier Bridge Reservoir shall contract with any other owners or users of water of the Sevier River to use by direct diversion or store primary water for such other owners or users in either the Sevier Bridge Reservoir or the Piute Reservoir prior to April 15th of any year, and provided further that none of the parties hereto will purchase for storage in either Piute Reservoir or Sevier Bridge Reservoir or Fool Creek Reservoir or for use by direct flow any of the primary or direct flow water rights of the Sevier River prior to April 15th of any year.

The Deseret Irrigation Company and the Abraham Irrigation Company shall be entitled to store and impound in Gunnison Bend Reservoir, during the non-irrigation season, the full capacity of said Reservoir, and to use or store any and all waters in excess of the capacity of the Reservoir and up to a maximum of ten thousand acre feet as shall arise below the spillway of the Sevier Bridge Reservoir; and shall be further permitted, during the high water season, to-wit, between April 1st and June 30th of each year, to impound or use, under said Gunnison Bend right, such quantity of water not in excess of ten thousand acre feet as may be available from the natural flow of the Sevier River in excess of all prior rights decreed in the Higgins decree.

The Deseret Irrigation Company shall not be entitled to the use of any water for the generation of water power for the opera-
